

Dear Friend,

100+ Women Who Care has been making a difference in the greater Madison area since 2014. Since then, our membership has grown to more than 200 women who truly care about improving our community by giving back. The organization has donated over \$650,000 to dozens of Dane County nonprofits organizations.

Our impact is made by our members who gather quarterly at various locations around the Madison area. There is an hour of networking followed by an hour of business. Our meetings include presentations by three nonprofit organizations that have been pre-selected. Each nonprofit gives a five minute presentation followed by five minutes of Q&A. Our members then vote. The nonprofit that receives the most votes is presented the 100+ Women Who Care Impact Award, which is a \$15,000+ grant comprised of various donations by our members.

As you can imagine, each meeting is very exciting! We encourage someone from your organization to attend a meeting as our guest and experience the excitement with us.

We also invite your organization to support 100+ Women by sponsoring our meeting(s).

The attached sponsorship overview describes the various levels of support (ranging from \$500 to \$3,000) along with the associated benefits.

100+ Women continue to strengthen Dane County nonprofits thanks to the passion shared by coming together to support a greater cause. Can we count on you to join our collaborative efforts to make a difference in our community?

We are happy to answer any questions and appreciate any consideration you are able to give to our request for support.

We are one team, united in giving back locally. All are welcome, respected and celebrated.

With warm regards,

Rhonda Adams and Val Hartjes
